

LogController::change
_write_Frequency

```
graph LR; A[LogController::change_write_Frequency] --> B[Logger::changeFrequency]
```

A diagram showing a call from LogController to Logger. On the left, a gray rectangular box contains the text 'LogController::change_write_Frequency'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Logger::changeFrequency'.

Logger::changeFrequency
